

Gabriela Lucía Díaz Torres

Frontend Developer & UI Engineer

React · TypeScript · Design Systems

Lima, Perú | +51 966 795 752 | gldt2494@gmail.com | linkedin.com/in/gldt | github.com/G9D4

Frontend developer with 4+ years of experience building responsive web applications and reusable UI components using modern frontend technologies. Experienced in design systems, REST API integration, and UI/UX collaboration, with a strong focus on usability and visual consistency. Skilled in cross-functional teamwork, Figma, Storybook, and component-based architectures.

CORE SKILLS

React | TypeScript | JavaScript (ES6+) | Angular | Next.js | Tailwind CSS | CSS3 | HTML5 | Bootstrap | Responsive Design | Design Systems | Storybook | Figma | Jest | Cypress | Git | REST APIs | Agile Methodologies | Firebase | MongoDB | Modyo

PROFESSIONAL EXPERIENCE

Frontend Developer / UI Designer - FactorIT (Client: Entel)

Remote | Chile

May 2024 - Jul 2024

- Designed and implemented frontend interfaces and workflows for an internal platform used to manage large-scale telecommunications equipment purchasing processes.
- Collaborated with stakeholders to translate business requirements into intuitive UI/UX solutions and approval flows.
- Created prototypes, reusable components, and animated flows in Figma for complex multi-step business processes.
- Developed responsive interfaces using Oracle APEX, JavaScript, CSS, and HTML, including forms, validations, warnings, and approval states.

Frontend Developer - FactorIT (Client: Coordinador Eléctrico Nacional)

Remote | Chile

Mar 2024 - Jun 2024

- Developed and maintained Angular-based interfaces and forms for an internal energy management platform.
- Implemented validations, warnings, error states, and UX improvements focused on reducing user confusion and preventing operational mistakes.
- Reviewed workflows and interfaces to identify usability issues and improve clarity across complex business processes.
- Built new pages and integrated internal APIs using Angular, TypeScript, JavaScript, Bootstrap, and Git in a Scrum environment.

Frontend Developer - FactorIT (Client: Caja Los Andes)

Remote | Chile

May 2022 - Mar 2024

- Developed reusable UI components and templates using React and JavaScript for the company's internal design system and component library.
- Led manual, functional, and visual QA workflows using Cypress, Chromatic, Storybook, and Modyo to ensure component reliability and visual consistency.
- Collaborated with designers during handoff processes to review responsive layouts, edge cases, and component behavior.

- Supported cross-functional teams by resolving UI issues, reviewing implementations, and maintaining component documentation and standards.
- Contributed to responsive interfaces and design-to-development workflows in an enterprise banking environment using Git, Figma, Kanban, and Monday.

PROJECTS

Geist EdTech CMS - [GitHub](#)

Frontend Developer (Product Design Responsibilities)

Mar 2026 - Apr 2026

- Collaborated with a distributed Scrum team of developers and assumed Product Design responsibilities, defining product features, application workflows and user experience for a multi-tenant testimonial management platform for EdTech companies.
- Led project coordination during part of the engagement by tracking progress, organizing deliverables and facilitating team alignment throughout sprint execution.
- Defined business rules, user permissions and feature workflows while collaborating with backend developers to establish REST API contracts.
- Designed dashboards, forms and administrative interfaces in Figma before implementing them as responsive frontend interfaces.
- Developed reusable frontend components using Next.js, React, TypeScript, shadcn/ui and Zustand, integrating REST APIs through Axios and TanStack Query.
- Collaborated with teammates across multiple countries through pull requests, code reviews and Agile ceremonies, supporting consistent delivery throughout the project.

EDUCATION

UX/UI Design (In Progress)

Coderhouse

Expected completion: Sep 2026

Specialization Program in Frontend and Backend Web Development

Pontificia Universidad Católica del Perú (PUCP)

Sep 2024 - Mar 2025

Frontend Development Bootcamp

Laboratoria

Oct 2021 - Mar 2022

LANGUAGES

Spanish — Native

English — C1 Professional Proficiency

French — A2 Basic Proficiency
